IF YOU ARE NO LONGER INTERESTED IN GROWING FLOWERS WILL YOU KINDLY HAND THIS LIST
TO A FRIEND WHO IS A FLOWER GROWER. THANK YOU.

GLADHAVEN GARDENS

George G. Fowler, Prop.

North Main Street

1941

Franklin, N. H.

THIS LIST CANCELS ALL PREVIOUS PRICES

Again I greet you my friends with my small but comprehensive Price List of Bulbs. I want to thank you for your generous purchases in the past 19 years I have been growing and selling bulbs. I do not issue an expensive colored catalog, so can pass along the saving to you in extra bulbs. There are some price changes in this list, mostly downward, and only higher where the former price did not cover cost of production.

Some of the new expensive varieties are wonderful glads, I have a very limited stock of them. Early orders will be filled completely, I cannot guarantee to fill orders received after June 1st, except the Gladhaven Assortment.

EARLY ORDERS PAY. PLEASE READ CAREFULLY

SIZE OF BULBS

Large size bulbs are 1 1/4 inches or over in diameter.

Medium Size bulbs are from 3/4 of an inch up to 1 1/4 inch in diameter.

Either size should make a satisfactory bloom. The larger size generally blooms earlier with a little larger spike.

WHY GROW GLADIOLUS?

Do you like beautiful flowers? Probably some of your "shut in" friends do too. Perhaps you have a sick friend. What is nicer for a cut flower than the long keeping Gladiolus Bloom. In the sick room, for table or general house decoration, there is a color and shade for every occasion, that is unequalled by any other flower.

THRIPS

Do not let these tiny insect pests deprive you of the pleasure of growing glads. I have never had to spray for them in my garden. I do not let them get started. My Cultural Directions tell you how to keep them out of your garden. You will not get thrips from the bulbs you buy from me. Don't throw away your bulbs because you had Thrips last year.

Full Cultural Instructions with every order.

GUARANTEE

I only ship high quality bulbs and will replace any that are not true to name or refund the purchase price. I cannot guarantee the crop. BULBLETS cannot be depended upon, either for germination or bloom, many fail to grow under the best of conditions. For best results plant Bulblets EARLY in the Spring, June is too late, April 30 is better.

TERMS

My terms are cash with order. Every order will be prepaid by me to any point within the 6th Postal Zone. If your order does not amount to at least \$1, enclose 10c extra for postage. Small orders under \$1 are shipped at a loss to me. 5 Bulbs of one kind sold at the 10 rate and 25 bulbs of one kind at the 100 rate. 25% cash with your order will hold the bulbs till April 1st, when you can remit the balance or I can ship C. O. D. It is unprofitable to have small orders shipped C. O. D. ORDER EARLY and state when you want the bulbs shipped and they will be sent you on that date. All prices subject to any State or Federal Sales Tax that may be imposed.

I will cheerfully make good any mistake that may be made in putting up your order, though I do not intend there will be. All orders acknowledged when received stating when bulbs will be sent, unless immediate shipment is made.

SPECIAL GLADHAVEN ASSORTMENT OF OVER 50 VARIETIES

As usual I am offering an extra choice assortment of Gladiolus Bulbs comprising many kinds in one grand collection. For more than 19 years my customers have been surprised and pleased with the splendid glads grown from my special Gladhaven Assortment. Every year I add many new and different varieties. Some bloom in 65 days, some in 75, some in 90 and a very few will take 110 days after planting to reach the blooming period, consequently this assortment should be planted early in May. When planted early in May this assortment will give you flowers from the middle of July to frost. All colors are represented in this great collection. There is no profit in selling this assortment, I charge it to advertising to build up new business. They must please you or I lose. Large bulbs, 30c per doz., 50 bulbs for \$1, 100 bulbs for \$1.80. Medium bulbs, 15c per doz., 50 bulbs for 60c, 100 bulbs for \$1.00. Small bulbs, 100 for 50c. Many of these small bulbs will bloom this year if planted before June 1. Order Early! Plant Early!

Join The New England Gladiolus Society. Send \$1 to Albin K. Parker, Sec'y., Box 2, Norwood, Mass. Their YEAR BOOK is worth more than the \$1.

When you dig your bulbs in the fall be sure to have them well dried out before placing in winter storage, and don't neglect cleaning off the old bulb and roots on the base of the bulb soon after going into storage. Do not remove the husks before planting time in the spring. After cleaning, storage powder may be scattered over them at the rate of an ounce to 100 large bulbs. Don't let your bulbs freeze at any time.

By reading this Price List carefully, a lot of unnecessary correspondence may be saved. I do not care to exchange named bulbs for unnamed or mixed lots from unknown sources.

5 Bulbs of the same size and variety at the 10 bulb rate.

100 Bulbs of a size and variety at 4 times the 25 bulb price.

Orders of \$1 and over are prepaid to you. If your order totals less than \$1, add 10c extra for postage and packing.

D & D (Death and Destruction)

Improved Rotenone Insect and Fungicide Powder

The increased sales of this preparation would indicate that the users are satisfied that this powder gives their plants more protection against insects, mildew and blight than anything else on the market. Non-poisonous to humans and animals and will not injure the most tender plant, indoors or out. Recommended for fleas and lice on cats, dogs and other animals. For best results dust your plants with D. & D. before mildew or rust starts. Try it this year on your Phlox, Delphiniums, Roses, Melons and Cucumbers. For Bean Beetles blow the dust to the underside of the bean leaves as soon as slugs hatch out, this will be shown by the skeletonized or lacy appearance of the leaves.

Prices are as follows f. o. b. Gladhaven: 1 pound package, 25c; 5 pounds for \$1. If ordered by mail add postage to your zone. Ask your Postmaster if you do not know.

Special offer to bulb buyers within third zone: If your bulb order amounts to \$2 or over to be mailed at one time, I will send D. & D. prepaid with your order.

EEZY WEAR GARDEN GLOVES

I use and highly recommend Eezy Wear Garden Gloves. They are made from very thin leather that is very durable and soft. Protects the hands from thorns and dirt. You will be surprised how well you can weed and handle bulbs without any inconvenience. Should be used when planting gladiolus bulbs that have been soaked in corrosive sublimate or other strong solution. They give bare-hand freedom.

Sizes for Women, small, medium and large. For Men, medium, large. Price is only 75c postpaid, or two pairs for \$1.40. A GOOD INVESTMENT.

SAF-T STORAGE POWDER For Gladiolus Bulbs

For a long time Naphthalene Flakes have been regarded as the best Thrip preventive to use on gladiolus bulbs during winter storage.

Several years ago, I decided that naphthalene flakes unless carefully removed before planting time were detrimental to the growth of the small and tender rootlets that start from gladiolus bulbs early in the spring.

The report of the New England Gladiolus Society last fall has sustained my opinion. For the past four years I have been using a powder prepared by myself, on my bulbs in storage. This powder is packed in all gladiolus bulbs shipped from Gladhaven Gardens, and should be planted with the bulbs. Keep your bulbs in a cellar with the temperature around 40° and use my Saf-T Storage Powder and you will find your bulbs will make a better start when planted, have less disease and will be practically free from Thrip. However I advise soaking all bulbs from whatever source in a solution of either corrosive sublimate or Ly-Sol at least 7 hours or overnight, and plant while still wet. Do not soak in the fall unless you can dry them again easily.

Prices for Saf-T Storage Powder are 1 pound, 15c; 4 pounds, 50c, at Gardens. Mail orders postage extra. With bulb orders amounting to \$2 or more, I will prepay to third zone.

EXHIBITION DAHLIA ASSORTMENT

My assortment of high class dahlias has been so popular that I am making the same price this year. These tubers when labeled usually sell for from 15c to 75c each. I am sending them post paid, unlabeled, 12 tubers for only \$1.25, 6 for 70c. Cultural instructions with each order.

Cannot ship until after April 15th. But place your order early so I can reserve them for you.

Send in your order not later than March and have your bulbs reserved for later shipment, say around April 15-20 which is probably as early as you can plant them. They will be put aside and shipped on the date specified. Every season I have to return money sent for bulbs ordered too late.

All prices subject to stock on hand when order is received.

IMPORTANT

For your own protection place your name and address on the outside of every letter you write enclosing orders. Sign your own name carefully. You and your banker know your signature. It may be a puzzle to others. I cannot assume responsibility for money sent loosely and unregistered.

GEORGE G. FOWLER
